Testimonials

Hear from our clients about their experience.

S. Enright
Brownsburg

"We would definitely build with Hoss Homes again. Even two years later, they are still very accessible and responsive to our questions. I can confirm all the positive references I received, both solicited and unsolicited."

S. Enright
Brownsburg

I would recommend them to everyone. Their workmanship is absolutely first rate, and they came in on budget. Even more so, they do a great job of listening to the client to make sure your custom home is exactly what you want it to be

S. Enright
Brownsburg

"You start out as a client and end up as a friend. Even though we asked for changes during construction, their attitude was always focused on getting us what we wanted while keeping the project on budget and on time."
